VC Range of Covers and Frame

Third Party Certification

Product Code	Clear Opening	Overall Size	Frame Height	3rd Party Certified
MH-B-VC1	315 x 765mm	600 x 970mm	56mm	Yes
MH-B-VC2	728 x 765mm	937 x 1050mm	56mm	Yes
MH-B-VC3	765 x 1135mm	1050 x 1390mm	56mm	Yes

FRAME

Galvanised angle Iron Frame with Grouting lugs. Locked with ESB Approved Bolts

COVER

It comes square in shape, it guarantees a good stability thanks to the height of the border and insertion depth not less than 50 mm, it comes with 2 dead holes, which allows the insertion of a suitable handle to lift the cover (supplied on request). All the covers are interchangeable. The upper surface is non-skid and has been designed to allow the complete flow of water and avoid the formation of ice. Cover can be badged or Unbadged.

INTENDED USE

It is designed for pedestrian walkways and similar areas, parking areas for all types of road vehicles including multi-stored car parks (see norm EN 124 group 2).

TREATMENT

The manhole cover has a protective coating of black paint and the Frame is Galvanised.
